

Communication Objectives

Comprehensive information, entertainment and if desired, quick and easy booking – these are the features of Karibik-Magazin.com, official partner of the Caribbean Tourism Organisation and online since February 2007. This Caribbean destination website for the German speaking markets closes the gap between individual Caribbean country websites and the big

online travel shops. Basic country profiles, tourist information and travel tips as well as features and more in depth stories about Caribbean Travel, Culture and Life constitute the attractive mix that characterises www.karibik-magazin.com. It offers an attractive advertising environment with a multitude of options, aimed at a travel oriented target group.
